Profile

I have experience in the development of complete web applications, from structural design and database modeling to the implementation of APIs and Frontend, combining strong skills in frameworks and libraries such as React JS and Vue JS, Express JS, and Adonis JS. I have worked in collaborative environments using agile methodologies such as SCRUM, and I have demonstrated skills in integrating payment systems such as Mercadopago, Paypal, and platforms like Salesforce.

Professional Experience

afrus Impact Technologies - **Web Developer** (July 2022 - Present)
- Bug Fixing and system general maintenance.
- Development of new functionalities, from its structural design and modeling in the database, access to data through APIs and development of the client/FrontEnd view based on a figma or design.
- Tasks running in the background and Handling Webhooks and Event Listeners in the Backend.
- Development and maintenance of Integrations with payment gateways such as Stripe and Paypal and external platforms such as Salesforce.
- FrontEnd client development from a design or figma provided by the client

Internship Experience

Alkemy **- Web Developer** - (February 2022 - May 2022)
- With a team of 5 people based on a goal set by the team leaders, a web application was developed from scratch in order to be delivered to a charitable association.
- The system had the possibility of managing users related to the organization. These users may have different roles, one of the roles being superuser.
- They taught us how to effectively collaborate on code using git, and how to organize and structure sprints based on SCRUM methodologies.

Skills

- Frontend Javascript Libraries and Frameworks such as **React JS**, **Next Js, Vue Js, Nuxt JS, Lit.**
- Backend **Node JS** Frameworks such as **Express JS** and **Adonis JS**
- Relational DataBases: **PostgreSQL** and **MySQL**

Languages

- Spanish (native).
- English C2 https://www.efset.org/cert/subWFA
